Scope 2			1,786
Scope 3			28,727
Biogenic			993
Total			31,965

Note all calculations are expressed in kgCO2e (GWP100), calculated utilising emission factors and methodology according to the source cited for each calculation. All values are estimates based on the best publicly available emission factors - see each tab for more details and the [Data & Methodology](#) tab for links to all sources used and a description of the methodology behind each.
